

Public Library Floor Map

Project Description:

This project was implemented as a solution to cracking ceramic tile flooring located in the central main floor public lobby of the Library. The flexible rubber flooring material provided a solution to the problem, and added a one of a kind centerpiece to the Library where even the floor is part of the learning environment.

Design Team:

Lyle Cook Martin Architects
Steve Wilson

Total Project Cost:

\$22,059

Contractor Team:

Rubber Flooring Systems, Inc.

Completion Date:

December 2012

Carolyn Bowers
County Mayor

Nick Powell, P.E.
County Engineer
