

# Spur Line Trailhead

## Project Description:

This project is a hidden gem in downtown Clarksville. It ties into the City of Clarksville's walking trails and sidewalks along Union Street. There are approximately 20 difference tree and plant species throughout the site. The project was a long time coming as the original grant application was submitted to TDOT in July 2003. The grant was finally approved in November 2009. During construction a 12.5% DBE (Disadvantaged Business Enterprise) goal was exceeded. This project consisted of full Construction Engineering Inspection and reporting in conformance with TDOT's Local Program Manual.

## Design Team:

Lyle Cook Martin Architects

## Total Project Cost:

\$881,513

## Contractor Team:

Fellowship Construction

## Completion Date:

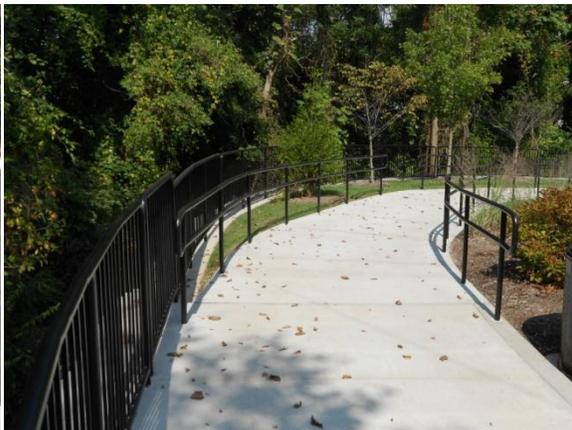

July 2014

Carolyn Bowers
