

# Jail Parking Garage

## Project Description:

This project included the removal of the non-structural concrete parking slab and underlying membrane and installing a new coating system on the structural slab as well as installing ventilation louvers and panels in the openings around the parking garage to reduce the amount of rainwater making its way inside the building. The project was needed to address the leaks occurring within the Jail spaces below the garage as well as leaks within the garage itself.

## Design Team:

Barge Waggoner  
Sumner & Cannon, Inc.

## Total Project Cost:

\$1,069,722

## Contractor Team:

C & C Contracting

## Completion Date:

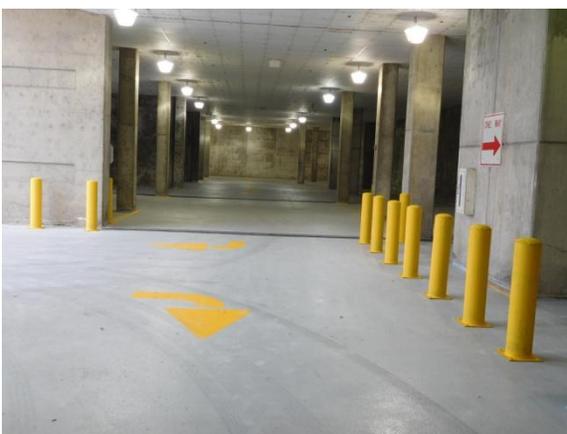

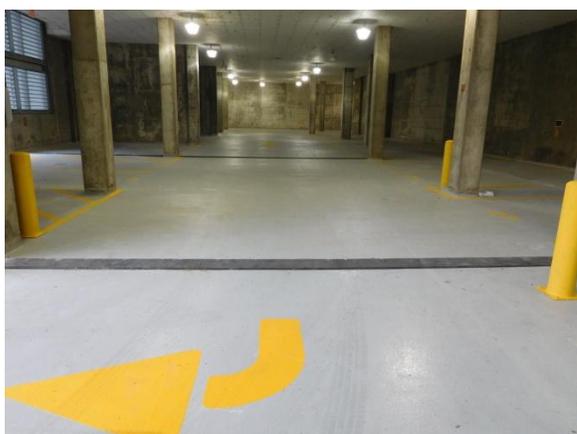

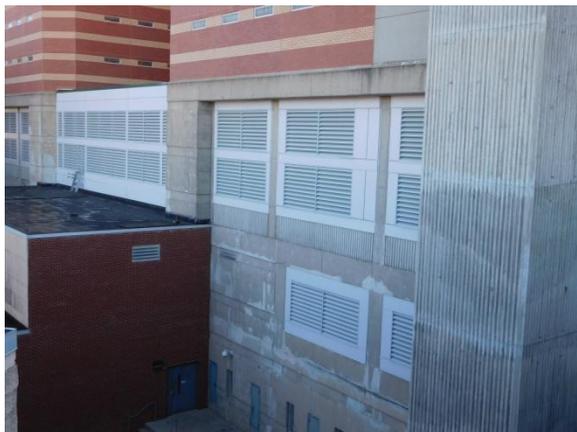

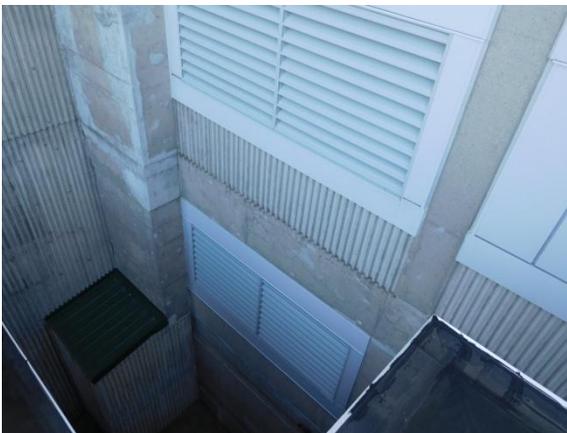

October 2016

Jim Durrett  
County Mayor

Nick Powell, P.E.  
County Engineer
